OPERABLE UNIT-4 VADOSE ZONE INVESTIGATION TECHNICAL MEMORANDUM -
EML-190-92

EG&G Rocky Flats, Inc. is hereby transmitting the above referenced document in accordance with EG&G memorandum 92-RF-13470. The Operable Unit No. 4 (OU-4) Vadose Zone Investigation Technical Memorandum (TM) has been conditionally approved by the Colorado Department of Health (CDH) and the Environmental Protection Agency (EPA). Comments received from CDH and EPA have been incorporated into the TM, as appropriate. The EPA has requested a schedule be integrated into the TM. The development of a level 5 Phase I RFI/RI schedule was not completed in time to be incorporated into the Vadose Zone Investigation TM. The Phase I RFI/RI schedule will be transmitted to DOE, RFO by December 28, 1992, along with the "Responsiveness Summary" addressing regulatory agency comments. Based on the CDH letter dated December 1, 1992 indicating condition approval of TM, CDH stated the revised Vadose Zone TM must be transmitted to them by December 15, 1992 or the conditional approval would be withdrawn.

Upon receipt of DOE, RFO's transmittal letter, EG&G will deliver the TM to EPA and CDH Tuesday, December 15, 1992.

Also enclosed are three (3) copies of the responsiveness summary for "EH-453" comments for the OU-4 Vadose Zone TM.
